

# Professionals to the World

*Values that Transcend*

## Work Report

-

Comayagua, Honduras May 13, 2025

**For:**

**Dr. John Potts**

Executive Director

**From: Engineer Elin Torrez**

Representative in Comayagua

## **Primary Schools**

I donated 277 books to 10 schools, where I demonstrated the use of the book to 34 groups of children. Approximately 850 children were reached.

We are now in 29 schools where children have direct access to the books for reading.

I have 500 more books that I will distribute to around 15 additional schools, aiming to have the program in over 40 schools by the end of the year.

## **Parents of Primary School Children**

I gave a talk to 50 parents on the topic *"Raising Our Children with Principles and Values."*

## **CURC (National University of Honduras in Comayagua)**

This year, I have been included as part of the university's working team for the university's Diploma program, The Essential, taught in the CNFV building on campus.

As part of this program, I was a speaker at a conference,, covering the topics *"The Impact of Example in Building Citizenship"* and *"Ethics in University Teaching."* There were 35 professors attending the conference.

I also gave zoom talks to 40 more professors.

The attendees at these seminars are university professors from different universities in Honduras including Tegucigalpa, San Pedro Sula, Choluteca, Copán, and Comayagua.

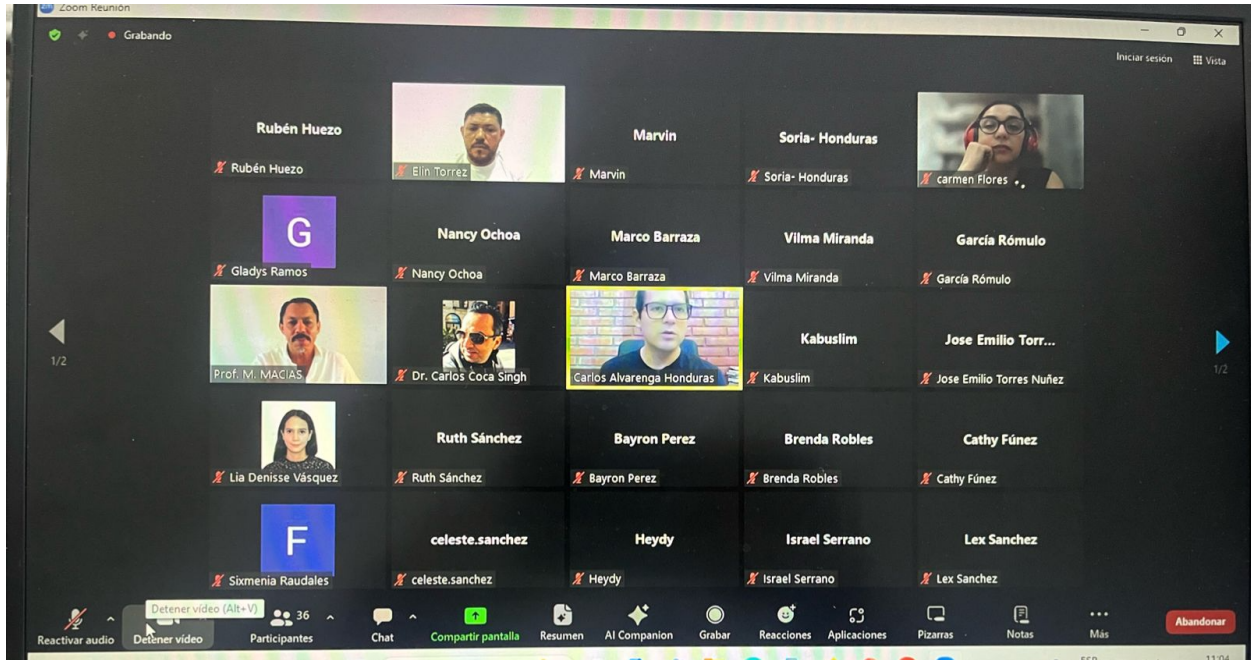

The Diploma graduation will be on May 31, and I hope to have the opportunity to give another talk.

In the coming months, I plan to firmly establish the partnership between PTTW and UNAH Comayagua also known as CURC.
